Add Numbers within 1,000

- What is a robot? What are some things that robots can do?
- You use 220 parts to make one robot and 157 parts to make another. How many parts do you use in all?

Chapter Learning Target:

Understand adding numbers.

Chapter Success Criteria:

- I can identify 10 and 100.
- I can count on from a number in different ways.
- I can explain how to use different counting strategies.
- I can represent numbers in different ways.
