About the Student Journal

Review & Refresh

The Review & Refresh provides students the opportunity to practice prior skills necessary to move forward.

Exploration Journal

The Exploration pages correspond to the Exploration in the Pupil Edition. Here students have room to show their work and record their answers.

Practice Worksheets

Each section of the Pupil Edition has an additional practice on the key concepts taught in the lesson.

Notetaking with Vocabulary

The student-friendly notetaking component is designed to be a reference for key vocabulary from the lesson. There is room for students to add definition to their words and take notes about key ideas.

Self-Assessment

For every lesson, students can rate their understanding of the learning target and success criteria.

Exploration Manipulatives

Manipulatives needed for the explorations are included in the back of the Student Journal.
